In this gripping and haunting book, we delve into the disturbing and complex cases of children who murdered their parents. Through extensive research and interviews, we uncover the psychological and environmental factors that contributed to these tragic events.

This book will take you on a chilling journey through the minds of these young killers. You'll discover the motivations behind their heinous acts, from

revenge and jealousy to mental illness and abuse.

This book is a must-read for anyone interested in true crime, psychology, or the dark side of human nature.
