

# How To Build Stylish Root Vegetable Storage Cabinet

Root vegetables are a great way to add nutrients to your diet. They're also relatively inexpensive and easy to store. However, if you don't store them properly, they can quickly go bad. This is where a root vegetable storage cabinet comes in. A root vegetable storage cabinet is a great way to keep your root vegetables fresh and organized. It also helps to prevent them from bruising or rotting.

## Materials

- 1x12 pine boards (3)
- 1x6 pine boards (5)
- 1x4 pine boards (8)
- 1/2-inch plywood (1 sheet)

- 1/4-inch plywood (1 sheet)
- 1-1/2-inch wood screws
- 1-inch wood screws
- 1/2-inch wood screws
- Wood glue
- Clamps
- Drill
- Saw
- Sander
- Finish nails
- Hammer
- Paint or stain (optional)

## **Instructions**

1. Cut the 1x12 pine boards to the following lengths:
  - 2 pieces at 24 inches
  - 2 pieces at 18 inches
2. Cut the 1x6 pine boards to the following lengths:
  - 2 pieces at 24 inches
  - 2 pieces at 18 inches
  - 1 piece at 12 inches

3. Cut the 1x4 pine boards to the following lengths:
  - 4 pieces at 22 inches
  - 4 pieces at 16 inches
4. Cut the 1/2-inch plywood to the following dimensions:
  - 24 inches x 18 inches
5. Cut the 1/4-inch plywood to the following dimensions:
  - 24 inches x 18 inches
6. Assemble the frame of the cabinet by attaching the 1x12 pine boards to the 1x6 pine boards with 1-1/2-inch wood screws. Make sure that the 1x12 pine boards are flush with the edges of the 1x6 pine boards.
7. Attach the 1/2-inch plywood to the bottom of the frame with 1-inch wood screws. Make sure that the plywood is flush with the edges of the frame.
8. Attach the 1/4-inch plywood to the back of the frame with 1/2-inch wood screws. Make sure that the plywood is flush with the edges of the frame.
9. Attach the 1x4 pine boards to the sides of the cabinet with 1-inch wood screws. Make sure that the 1x4 pine boards are flush with the edges of the cabinet.
10. Attach the 1x6 pine board to the front of the cabinet with 1-inch wood screws. Make sure that the 1x6 pine board is flush with the edges of the cabinet.

11. Attach the door to the cabinet with hinges. Make sure that the door is aligned with the cabinet and that it opens and closes smoothly.
12. Sand the cabinet and apply paint or stain if desired.

## Tips

- You can use any type of wood to build this cabinet, but pine is a good choice because it is relatively inexpensive and easy to work with.
- If you want to make the cabinet more durable, you can use 3/4-inch plywood instead of 1/2-inch plywood.
- You can adjust the size of the cabinet to fit your needs. Just make sure that the proportions of the cabinet remain the same.
- You can add additional features to the cabinet, such as drawers or shelves. Just make sure that the features fit within the overall design of the cabinet.

This root vegetable storage cabinet is a great way to keep your root vegetables fresh and organized. It is also a stylish addition to any kitchen. With a little bit of effort, you can build this cabinet in a weekend. So what are you waiting for? Get started today!
