

Politics of Social Psychology: Frontiers of Social Psychology

Politics and social psychology are two closely intertwined fields of study. Politics is the study of power and its distribution, while social psychology is the study of how people think, feel, and behave in social situations. It is therefore no surprise that the two fields have a great deal to offer each other.

Politics of Social Psychology: Frontiers of Social Psychology explores the complex relationship between politics and social psychology. The book brings together leading scholars from both fields to examine how political factors can influence our thoughts, feelings, and behaviors.

The book is divided into four parts:
